**Unisex CLUB Cycling Jersey Measurements - Raglan Sleeve Style
The Genesis / Volare Series**

Our Unisex CLUB cycling jersey allows for a more generous fit around your mid-section.
If you are looking for a CLUB fit we also recommend that you specify the omitting of the Silicone Gel Grippy along the waist/hem.

Cycling jerseys typically have a form fit to prevent material from flapping in the wind and to keep wicking materials close to the skin where they are most effective.

Some riders prefer a slightly looser fit sometimes referred to as a "CLUB Fit" or "Recreational Fit".
Our Unisex CLUB has this "Recreational Fit." These jerseys are usually closer to a regular polo/shirt type of fit with more room in the mid-section.

- > Note: All measurements are approximate. Our Size Chart is NOT the body size. It is a clothing size.
- > If you're unsure which size to buy. Measure a T-shirt or jersey you already own that fits you well.
- > Lay the T-shirt or jersey on a flat surface and use the guide to measure the 1/2 chest from armpit to armpit.
- > Compare those measurements to this size chart.
